

MUNICIPAL STRATEGY

Second Quarter 2018

OBJECTIVE

The Municipal Strategy seeks to generate a predictable stream of federally tax-free income emphasizing principal preservation through a controlled duration bond portfolio. The strategy seeks to outperform the benchmark Bloomberg Barclays Capital 1-10 Year Blended Municipal Bond Index.

Benchmark: Bloomberg Barclays Capital Municipal 1-10 Yr Blend

Inception Date: June 30, 2009

PHILOSOPHY

We believe in an active and controlled approach to fixed income management. We have generated strong relative risk-adjusted returns through fundamental analysis and bottom-up investing.

Active and Controlled Approach

- Focus on higher income sectors and securities
- Control interest rate risk
- Construct pure bond portfolio
- Constantly evaluate sector, yield curve, quality, and issuers to achieve optimal risk/reward

Where We Add Value

- We utilize in-house credit analysts for prudent security selection
- We control risk for our clients
 - Minimize market timing
 - Utilize high quality issuers
 - Focus on liquidity
- We can customize our approach

PORTFOLIO CHARACTERISTICS¹

The Municipal Composite includes all discretionary, fee paying, total return portfolios of tax-exempt bonds with security guidelines that are similar to the composite's benchmark, the Bloomberg Barclays Capital 1-10 Year Blend Municipal Index. Portfolios subject to substantial client imposed restrictions are excluded from this composite. The minimum portfolio size for inclusion in the Municipal composite is \$500,000. Accounts are added to the composite their duration is similar to that of the Bloomberg Capital 1-10 Year Blend Municipal Index. Accounts are removed from the composite prospectively, while retaining their prior historical performance in the composite, at termination of the Firm as investment manager or when investment policy guidelines are instituted substantially restricting implementation of the approach. Terminated portfolios will be removed from the Municipal Composite after the last full month of active management. The Composite was created on June 30, 2009. Accounts within this composite do not employ leverage. All cash reserves and equivalents are included in returns. Returns are time weighted and include reinvestment of dividends, income and gains. The value of assets and returns is expressed in U.S. dollars. Market commentary is available at www.greatlakesadvisors.com or upon request.

The benchmark selected for comparison of returns for the Municipal Composite is the Bloomberg Barclays Capital 1-10 Year Blended Municipal Bond Index, a market index of high quality, domestic fixed income securities with maturities of less than 10 years. It has four main sectors: General Obligation, revenue, insured, and pre-refunded bonds. Index returns are provided to represent the investment environment existing during the time periods shown. Total return comprises price appreciation/depreciation and income as a percentage of the original investment. Indices are rebalanced monthly by market capitalization. For comparison purposes, each index is fully invested, which includes the reinvestment of income. The returns for the index do not include any transaction costs, management fees or other costs. The index is not available for direct investment.

Investments in debt securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term debt securities. Investment in lower-rated and non-rated securities presents a greater risk of loss to principal and interest than higher-rated securities.
