

OBJECTIVE

The Disciplined Equity LargeCap strategy seeks to outperform the S&P 500 Index over time through superior stock selection while maintaining risk characteristics that are similar to the benchmark.

Benchmark: S&P 500 Index
Inception Date: May 1, 1999

PHILOSOPHY

Our goal is to deliver a more consistent alpha for our clients. The challenge is, the stock market is a complex adaptive system and no static approach works all the time, therefore our analysis must emphasize the most important characteristics at any given point in time.

The Solution for Our Clients

- Employ a diverse set of factors
- Evaluate relative to multiple peer groups
- Adapt to evolving market conditions
- Construct a portfolio with an optimal balance of risk and return

Objectives

- Consistent excess returns from disciplined stock selection
- Style and sector diversification in one mid-to-large capitalization portfolio

PORTFOLIO GUIDELINES

Holdings: Approximately 70-85 positions

Sector Over/Underweights: S&P 500 +/- 5.00%¹

Position weights: 0.50% to S&P 500 weight +2.50%¹

Cash position: Typically 0.5% to 1.5%

Average Annual turnover: Typically 60% to 120%

Investment Universe: S&P 500 + top 500 Russell 1000 Index Members²

PROCESS

We use a “bottom up” systematic process to evaluate the universe of stocks using three independent analyses, each of which is designed to provide a unique valuation perspective.

Broad Universe Analysis (1 model)

- Evaluates each stock relative to all other stocks in the investment universe.

Style-Specific Analysis (4 models)

- Evaluates each stock relative to its peers with the same combined market capitalization and style profile.

Sector-Specific Analysis (11 models)

- Evaluates each stock relative to all other stocks in the same economic sector.

These three analyses are combined to generate an excess return expectation for each stock. Stocks must rank in the top 20% to be considered for purchase.

SELL DISCIPLINE

Successful positions are sold as return expectations are realized and/or valuation perspectives deteriorate into overvalued conditions.

The Disciplined Equity LargeCap Composite includes all fee-paying accounts managed under the LargeCap Total strategy and is benchmarked to the Standard & Poor's ("S&P") 500 Index. Accounts within this composite do not employ leverage. The composite inception date was May 1, 1999. All cash reserves and equivalents are included in returns. Returns are time weighted and include reinvestment of dividends, income and gains. The value of assets and returns is expressed in U.S. dollars. All holdings available upon request. Performance prior to October 1, 2013 occurred at Advanced Investment Partners prior to being acquired by Great Lakes Advisors. Additionally, market commentary is available upon request.

The benchmark selected for comparison of returns for the LargeCap Composite is the S&P 500 (an unmanaged index that tracks the performance of 500 widely held, large-capitalization U.S. stocks. They are usually the 500 largest companies in terms of market capitalization and are chosen to represent the entire market's value.); Index returns are provided to represent the investment environment existing during the time periods shown. All indexes are fully invested, which includes the reinvestment of income. The returns for the index do not include any transaction costs, management fees or other costs. The index is not available for direct investment. Industry sectors are presented to illustrate the diversity of areas in which we may invest, and may not be representative of current or future investments.
