

INTERMEDIATE FIXED INCOME

OBJECTIVE

The GLA Intermediate Fixed Income strategy seeks to maximize total return by investing in securities that offer competitive value relative to the Bloomberg Government/Credit Intermediate Index.

Benchmark: Bloomberg Intermediate Gov/Credit Index

Inception Date: December 31, 1988

PHILOSOPHY

We believe in an active and controlled approach to fixed income management. We have generated strong relative risk-adjusted returns through fundamental analysis and bottom-up investing.

Active and Controlled Approach

- Focus on higher income sectors and securities
- Control interest rate risk
- Construct pure bond portfolio
- Constantly evaluate sector, yield curve, quality, and issuers to achieve optimal risk/reward

Where We Add Value

- We utilize in-house credit analysts for prudent security selection
- We control risk for our clients
 - Minimize market timing
 - Utilize high quality issuers
 - Focus on liquidity
- We can customize our approach

PORTFOLIO CHARACTERISTICS¹

	Intermediate Fixed Income	Bloomberg Intermediate G/C Index
Average Quality	A1	Aa1

PROCESS

Our active and controlled approach uses a combination of group and individual team member analysis to consistently apply our process.

Examination of the Macro Landscape

- Understand general economic trends both in the U.S. and abroad, and how these issues are affecting the bond market and interest rates
- Evaluate the best yield curve positioning and sector opportunities given the current environment

Security Selection

- Experienced sector specialists are responsible for focused security selection
- Individual security selection is typically the primary source of value-add within our process

Portfolio Construction

- Duration management, high quality preference, premium coupons, individual bond structure, and diversification are all important considerations to maximize the risk/return profile

The Intermediate Fixed Income Composite includes all discretionary, fee paying, tax-exempt total return portfolios of taxable bonds with portfolio durations and security guidelines that are similar to the composite's benchmark, the Bloomberg Capital Intermediate Government/Credit Index. Portfolios subject to substantial client imposed restrictions are excluded from the composite. Beginning June 30, 2012, the minimum portfolio size for inclusion in Intermediate Fixed Income Composite is \$2 million USD. Accounts are added to the composite when their duration is similar to that of the Bloomberg Capital Intermediate Government/Credit Index. Accounts are removed from the composite prospectively, while retaining their prior historical performance in the composite, at termination of the Firm as investment manager, when there is a change in the benchmark when the value of the account drops below \$1 million for a period of nine consecutive months, or when investment policy guidelines are instituted substantially restricting implementation of the Intermediate Fixed Income Composite strategy. Accounts within this composite do not employ leverage. The composite inception date was December 31, 1988; and the composite was created on December 31, 1992. All cash reserves and equivalents are included in returns. Returns are time weighted and include reinvestment of dividends, income and gains. The value of assets and returns is expressed in U.S. dollars. All holdings available upon request. Market commentary is available upon request.

The benchmark selected for comparison of returns for the Intermediate Fixed Income Composite is the Bloomberg Capital U.S. Intermediate Government/Credit Index, an unmanaged index based on all publicly issued intermediate government and corporate debt securities with maturities of 1-10 years. Index returns are provided to represent the investment environment existing during the time periods shown. The Intermediate Government/Credit Index represents securities in the Government and Credit Indices. The Government Index includes treasuries and agencies. The Credit Index includes publicly issued U.S. corporate and foreign debentures and secured notes that meet specified maturity, liquidity, and quality requirements. For comparison purposes, each index is fully invested, which includes the reinvestment of income. The returns for the index do not include any transaction costs, management fees or other costs. The index is not available for direct investment.
